WIRED CLOCK SYSTEM

AFNOR coded time transmission for clocks. Non-Screened Multicore Cable 16/0. 2mm (0.5mm²). 4 wires (2 for signal, 2 for low voltage power supply)

Place	Description	Recommendation	Alternatives
1 service room	MTC master clock server Multifunctions 230V power supply		Microquartz MTS IP time server CTC time server
2 computer network	Modular master clock Wireless time distribution, NTP time server for LAN or WAN computer network 230V power supply	or  Mic Sigma Mod	CTC - MTS
3 facade dial	Outdoor dial, Various diameter size and colors, AFNOR clock movement compatible with the Wireless System through an adapter	 Facia Dial	Profil 960 E Style 12 E
4 passengers area	Backlighted LCD clock Hour, minute 230V power supply	 Opalys 14	HM/HMT 715 Cristalys 7 Style 12 I
5 offices	LED digital clock Hour, minute, second 230V power supply	 Style 7 Ellipse	Cristalys Date Profil 930 I Style 7
6 check in desk	Backlighted LCD clock Hour, Minute, second 230V power supply	 Opalys Ellipse	Style 5 D Cristalys 7 Profil 930 I
7 control tower	LED digital clock Hour, Minute, second 230V power supply	 Style 5 S	Cristalys Date Style 7 Cristalys Ellipse
8 sheds passengers area	Analogue clock Weatherproof, hour, minute 60cm diameter 230V power supply	 Profil 960 E	HMS 700 Style 12 E Profil 940 E Profil TGV 970

Power supply: **A** 230V Mains power **B** 1,5V batteries **C** 6/24V Very low voltage (TBT)
