WIRELESS CLOCK SYSTEM

869MHz radio transmission
Coded time
Transmission signal range: 200 meters

Place	Description	Recommendation	Alternatives
① service room	Master clock with programming circuits, radio synchronised, AFNOR coded time output signal 230V power supply	 or  Mic Sigma Mod	MTS MIC AFNOR Style 7 Date
② computer network	Modular master clock Wireless time distribution, NTP time server for LAN or WAN computer network 230V power supply	 A	CTC - MTS
③ reception	LCD calendar clock Battery power supply	 B or C Cristalys Date	Style 7 Ellipse Profil 930 Cristalys Ellipse
④ offices	LCD clock Hour, Minute Battery power supply	 Cristalys 7 B or C	Cristalys Date Style 7 Profil 930 I
⑤ meeting room, council chamber	Backlight LCD clock Hour, minute, calendar 230V power supply	 A Opalys Date	Style 5 Date Cristalys Ellipse Cristalys Date
⑥ stock exchange room	Multi-time zones LED digital clock. 3 to 6 Locations 230V power supply	 A Style Time Zone 6 C	Cristalys 14 Style 7 Style 5 S Style Time Zone 4 C
⑦ healthcare facilities	LED digital clock Hour, minute, date 230V power supply	 A Style 5 Date	Cristalys Date Cristalys 7 Profil 930 I
⑧ carpark	Digital clock with very bright LED. Hours Minutes, date or temperature. calendar. 230V Power supply	 A Style 12 E	HMT LED Profil 940 E Profil 960 E
