

Farnham Green Primary School Increased Learning Time and Saved Money Using Bodet's Clock and Class Change System

Cecilia Irons, School Business Manager, at Farnham Green Primary School explains her experience of working with Bodet and the benefits of using their clock and class change systems:

A flexible solution

*"We first invited Bodet to install their **class change system** into our school in 2009. At that time we found them to be extremely helpful, listening to our requests and working with us so we achieved our exact requirements.*

At that time we were very pleased with the installation and subsequent service and maintenance.

*Since then we have added extra timings to include the Head Teacher reminding duty staff to go to the playground in the morning, also to go home at the end of the day (as so many work hard and stay late), Remembrance Day two minute silence and term dates that change each year. These extras were all addressed promptly. **One of the main attractions of using this system was its flexibility.***

*All this works brilliantly in our school as we **do not have to adjust clocks** in any of the classrooms or the main lesson changer, **as it is done automatically**. This **saves the caretaker time** and we know **all the clocks are telling the same time**. We have fewer problems too. We are able to address pupils that are persistently late, playtime and lunchtime run more smoothly and we no longer have parents complaining that their children do not leave the classrooms on time. The whole system is popular with all the staff.*

The system meets our needs for both today and the future

*When the Local Authority decided to expand our school, we insisted that Bodet added their **sounders to the new part of our school**. We had six new classrooms, an ICT suite, new admin offices, group rooms and hall built. Bodet was one of only a few companies the main contractor allowed on site during the building project.*

The engineer came with PPE and full risk assessments all in place. We had the hand over in August 2012 and have since added an outside clock to our new playground.

Bodet's system is such an integral part of our school life now that we would be lost without it."

SUMMARY

Overview

Industry: Education

Solution: Clocks & Class change system

Benefits

- Synchronised time across the organisation
- Increased learning time
- Link clocks to Bodet's class change system

About Bodet Limited

Bodet has provided clocks, class change and Time and Attendance solutions for over 25 years.

Bodet's devotion to constant improvement has enabled Bodet to become the European leader in its sector.
