

Kimbolton School

Kimbolton School uses Bodet to control class changes across its premises.

Facilities Manager Simon Richardson explains how Bodet's class change system is increasing learning time and enhancing punctuality at Kimbolton School.

SUMMARY

Overview

Industry: Education
Solution: Class change system

Benefits

- Increase learning time
- Enhance punctuality
- Broadcast announcements

Ensuring lessons run on time

Kimbolton School is a prestigious institution which aims to prepare children for lifelong learning through enthusiasm, commitment and self-discipline. Simon explained the reasons why a class change system was important to help with the smooth running of the school:

"Teachers wanted to be able to start and end their classes at the right time to maximise the learning experience. We also consider that the notion of time and punctuality is important for children to learn".

"The class change system ensures classes run on time. It has improved punctuality around the school." adds Simon.

State-of-the art system

Simon appreciates the fact that the system is flexible and easy to use: *"It is simple to broadcast the right announcement such as wet break and emergency announcements via the class change system. The system is easy to use and we are very happy with it".*

"We have very good relationship with Bodet. They provided us with good advices during the buying process and the installation was efficient. We are considering extending the system to the Preparatory School. We highly recommend Bodet. They provide high quality systems and services", concludes Simon.

About Bodet Limited

Bodet has provided clocks, class change and Time and Attendance solutions for over 25 years.
