About Bodet Limited

Bodet has been offering clock systems, class change systems and Time and Attendance solutions for over 25 years.

Bodet's devotion to constant improvement has enabled Bodet to become the European leader in the Time Management sector.

Windsor Leisure Centre is a multi-purpose leisure centre situated in Windsor.

Simon Baker, Manager at Windsor Leisure Centre, explains his experience of working with Bodet and the benefits of using Bodet's **clock system in sport centres**.

Ensuring synchronised time in your organisation

Sport centres often face timing issues for their classes. To resolve this Windsor Leisure Centre decided to purchase a clock system. The objective was to **"ensure time was the same throughout the facilities"**.

Since the installation of Bodet's system **"the sports hall runs more efficiently for court changes and there are no longer any timing disputes"**, commented Simon.

The benefits of Bodet's system

The ease of use of the system combined with the smart appearance of the clocks convinced Windsor Leisure Centre to use Bodet's clock solution: **"We liked the style of the digital clocks. The clock system is simple to use and clocks are suitable for a swimming pool environment"**.

Bodet's system offers the possibility to add equipment as your needs increase **"The beauty of the Bodet system is that you do not have to buy everything at once. You can add equipment & functionality to the system at any time"**, explained Simon.

Reliable system & services

The quality of Bodet's clocks & clock systems are really appreciated by Windsor Leisure Centre. **"The system has run for nearly 4 years without any faults. There is longevity with Bodet's equipment"**.

Bodet's devotion to providing high-level service was also pointed out by Simon: **"The delivery and installation happened on time. We are very happy with the service. Bodet delivers exactly what they say they will"**.
